Presenting	7-1	Mar 65	p2

(Continued on next page)

(Continued from page 160)

The meeting was held jointly with the American Society of Civil Engineers at the Engineering Society of Cincinnati.

Northern California Section

Joe Nelle, President, Delta Prestressed Concrete Company, gave a talk and showed slides on precast and prestressed concrete at the Sept. 15 meeting.

San Francisco Section

"New Ideas in the Critical Path Method" was the title of a talk by James Halcomb of James Halcomb Associates, Critical Path Consultants, at the Sept. 22 meeting.

Mr. Halcomb showed slides and charts which demonstrated the most practical results of CPM and PERT (Program Evaluation and Review Technique). He elaborated on the use of CPM and PERT in effectively controlling man-hour and dollar expenditure on a completely planned project.

D. A. McLeod, Bigge Crane and Rigging Company, presented a talk on "Rigging Techniques and Costs," at the Oct. 27 meeting.

Improvements, both of equipment and techniques, were discussed, as well as the relative safety enjoyed today.

Chicago-Midwest Section

E. John Mark, Procon, Inc., and W. E. Drake, Inland Steel Company, were the featured speakers at the Oct. 7 meeting. A discussion and review of the papers given at the 9th Annual Convention in Los Angeles was held.

Julian Piekarski, chairman of the Profitability Committee, and Clarence Holsapple of the Capital Cost Committee have both moved up to national offices in their respective areas.

* * *

Featured speakers Henry C. Thorne and Rodney Carlson, both of the American Oil Company, spoke on "Optimum Timing of Equipment Replace," and "Rate of Return—AAACE Textbook" at the Nov. 4 meeting.
